

MONITORING ATHLETIC ELIGIBILITY

Prior to the start of an athletic involvement, the coach will call a meeting for interested participants. A list of names is generated from this meeting and submitted to the administration. The administration and Athletic Director/s then conduct the eligibility check required by CIAC. Each coach keeps an updated list of participants. Before a student is added to the roster, the name is submitted to the administration/Athletic Director/s for an eligibility check. All lists are re-checked for eligibility throughout the year according to CIAC requirements.
